## SUMMARY

Data Analyst and Computer Science graduate with professional experience in multinational and remote teams. Skilled in data analytics, risk management, and dashboarding, with hands-on expertise in SQL, Python (NumPy, Pandas, Matplotlib, Seaborn), Excel, and Power BI. Adept at connecting, cleaning, and visualizing data for actionable business insights. Passionate about leveraging technology to solve real-world problems and drive organizational success.

## SKILLS SUMMARY

- **Data Analysis:** Python (NumPy, Pandas, Matplotlib, Seaborn), SQL, Excel (Advanced), Power BI
- **Programming:** VBA, C/C++, JavaScript, Java, Dart
- **Project Management:** Jira, Agile Methodologies, Smartsheet, SharePoint
- **Databases:** MySQL, MS SQL Server, Data Querying & Analysis
- **Development:** Git, Linux, Flutter, Flask
- **Soft Skills:** Leadership, Teamwork, Time Management, Problem Solving

## EXPERIENCE

- **Kontoor Brands Inc.** Bangladesh Office  
*Social Compliance Risk Management Intern* Jul 2025 – Sep 2025
  - **Compliance Data Analysis:** Analyzed and processed compliance audit data from 500+ global suppliers using Python and Excel, identifying critical risk patterns and compliance gaps for executive decision-making.
  - **Risk Visualization:** Developed comprehensive heatmaps and risk maps using Power BI and Python, enabling senior management to visualize supplier compliance status across 37 countries and prioritize high-risk areas.
  - **Data Pipeline Management:** Built and maintained ETL processes to integrate data from SQL databases and SharePoint, ensuring accurate and timely reporting for global compliance monitoring.
  - **Strategic Reporting:** Created interactive dashboards and automated reports that delivered actionable insights to international teams, supporting data-driven compliance strategies and reducing audit cycle time by 30%.
- **DIAL: Design Inclusion & Access Lab** North South University  
*Research Assistant* 2023 – 2025
  - **Flash Flood Prediction:** Worked on water sensors for early flood alerts and sending SMS notifications to local authorities. Responsible for handling and analyzing sensor data.
  - **Sentiment Analysis in Bangla Restaurant Reviews:** Contributed to a dual approach research project using Machine Learning and Deep Learning for sentiment analysis in Bangla restaurant reviews.
- **AppHostBD** Remote  
*Application Developer (Part-time)* Feb 2020 – 2023
  - **Flutter Apps:** Developed and enhanced Flutter apps; improved UI/UX and fixed bugs
  - **Client Hosting:** Managed client hosting and domain databases
  - **Collaboration:** Collaborated on updates, debugging, and client support

## PROJECTS

- **Compliance Risk Analytics Dashboard** /compliance-dashboard  
Comprehensive data analytics project analyzing global compliance audit data (2023-2025) from 1,182 audits across 37 countries. Built interactive Power BI dashboard using Excel, Power Query, DAX measures, and data relationships to identify compliance trends, risk patterns, and violation severity distribution. Analyzed 11,000+ records to uncover key insights for executive decision-making.
- **Gudam Guru** /GudamGuru  
Inventory management app for small businesses. Features sales tracking, stock alerts, and analytics dashboard. Built with Flutter and MySQL. Helped local retailers digitize inventory and improve business scaling.
- **Recycle Hub BD** /recycle\_hub.bd.v2  
AI-powered app for smart recycling and waste tracking. Uses image recognition to classify waste and suggest recycling options. Built with Flutter, TensorFlow Lite, and Supabase.
- **Flash Flood Prediction** /flash-flood  
IoT system using Arduino and water sensors for early flood alerts. Sends SMS notifications to local authorities. Deployed in flood-prone rural areas as a pilot project.

## EDUCATION

- **North South University** Dhaka, Bangladesh  
*Bachelor of Science in Computer Science and Engineering* 2020 – 2024  
*Courses:* Operating Systems, Data Structures, Analysis Of Algorithms, Artificial Intelligence, Machine Learning, Networking, Databases  
*Research:* Assistant at DIAL (Design Inclusion & Access Lab)

## CERTIFICATIONS

- **Atlassian Agile Project Management Professional Certificate:** LinkedIn Learning - 2025
- **Complete Data Analyst Bootcamp:** Udemy - In Progress (40% Complete)

*View all Licenses & Certifications at [certs.fahimmuntashir.com](https://certs.fahimmuntashir.com)*

## LANGUAGE PROFICIENCY

- **Duolingo English Test:** Overall Score: 115/160
  - Production: 125/160 (Speaking & Writing)
  - Literacy: 120/160 (Reading & Writing)
  - Comprehension: 110/160 (Reading & Listening)
  - Conversation: 115/160 (Listening & Speaking)

## HONORS AND AWARDS

- **NASA Space Apps Challenge 2022:** 1st Runner-Up
- **Blockchain Olympiad Bangladesh 2023:** Finalist
- **National Science Fair 2015/2016:** Winner/Runners-Up
- **KIBO Robot Programming Challenge 2023:** 6th Place

## VOLUNTEER EXPERIENCE

- **NSU ACM Student Chapter**  
*Mentored juniors in CSE215 (OOP), led workshops, and guided labs* 2021 – 2022
- **IEEE NSU Student Branch**  
*Core Developer for branch website; led a team of 6 devs* 2022 – 2023
- **Hour of Code Dhaka**  
*Conducted coding workshops in 3 major universities* 2022

## HOBBIES & INTERESTS

- **Photography** /photography  
Featured in exhibitions across Bangladesh, Nepal, and Australia.
- **Reading** /book-notes  
300+ book collection, monthly reader, notes and highlights shared online.
- **Traveling** /travel  
Love exploring new places and cultures — documented through photos and blogs.
